FIRST TIME IN INDIA  
MADE WITH :

*Octapro*  
TECHNOLOGY

4 TIMES  
PRESSING  
4 TIMES  
TREATMENT

**COMPLETE PROCESS OF  
MANUFACTURING  
THROUGH OCTAPRO TECHNOLOGY :**

OCTAPRO technology is one of the most latest and perfect process to manufacture best quality plywood. Plywood made with this technology has longer life than any other plywood made without this technology. Utmost care is taken to manufacture plywood by this process. OCTAPRO technology plywood is pressed 4-times and 4-times treated by latest preservative to make it stronger and safe against termite and borer.

**4 TIMES PROTECTION:**

1. Hot dip preservative treatment of core veneers after peeling
2. Glue line treatment of core veneer during assembly
3. Nano Particle chemical treatment of final pressed plywood for increased safety against microbial attacks
4. Hot water preservative treatment of plywood

**4 TIMES PRESSING:**

1. Cold pressing of MAT ply
2. Hot pressing of MAT ply
3. Cold pressing of face veneer on MAT ply
4. Hot Pressing of face veneer
